Summer 2010

My dear friends,

The 2010-11 concert program of the Westfield Symphony Orchestra marks the 28th season of this premier professional musical organization, and my 10th anniversary as your Music Director.

Despite the adverse effect of a weakened economy on all not-for-profits, the WSO stands firm and strong in our ability to make music well into the 21st Century. In fact we have witnessed a wonderful renaissance in our organization, manifest by an increased and invigorated Board, a more diverse and culturally relevant musical program, and an enthusiasm from our audiences that has been unmatched in my decade-long tenure. Without a doubt, we are on a roll, carried forward by what I believe to be another eclectic, refreshing, and diverse program.

There is something here for everyone. Whether it be drama on the stage (Cavalleria Rusticana/I Pagliacci), drama in motion (Ballroom Extravaganza), drama on the silver screen (Phantom of the Opera), Holiday celebrations, or the passion and pure thrill of supreme orchestral sound (Tchaikovsky and more), this season is all about energy and momentum carrying us forward on a wave of exquisite musical experiences.

Subscribe today and join us for the launch of another unforgettable music journey!

David Wroe, Music Director and Conductor
