

PLANS FOR THE FUTURE...The Musial Group provided a full-color picture of the new Union County Police Headquarters and Forensics Lab, which will be erected in Westfield. The project calls for the construction of a "three-story, masonry clad 'state of the art' police and forensic facility." The building will be constructed on the site located on North Avenue and will house the Union County Prosecutor's Office Communications and Forensics Units, the Union County Police Department and the Union County Emergency Management Office.

County's New Police Headquarters Unveiled Before Planning Board

By JAMES FOERST
Specially Written for The Westfield Leader

The County of Union has unveiled plans to construct a new Union County Police Headquarters and Forensic Laboratory in Westfield. The plan, which was presented this past Monday at the Westfield Board of Adjustment meeting, was endorsed by the board provided that the Union County Board of Freeholders utilize an acceptable exterior finish and install exterior lights in keeping with the towns lighting plans.

The board acknowledged that they had no jurisdiction over the county plan but suggested that the county increase financing so that the building and premises would be constructed in keeping with the character of the town.

The project calls for the construction of a "three-story, masonry clad 'state of the art' police and forensic facility." The building will be constructed on the site located on North Avenue and will house the Union County Prosecutor's Office Communications and Forensics Units, the Union County Police Department and the Union County Emergency Management Office.

The 51,209 square foot building will be constructed at the eastern end of the site while continuing to utilize the present structure. Upon completion of the new building, the present structure will be demolished and replaced by a 9,581 square foot Emergency Vehicle Storage Building. The garaging facility will house some 22 county vehicles including trucks, boats and snow mobiles. The vehicle entrances will be located in the rear of the building facing the railroad tracks.

The streetscape will consist of brick and raut iron fencing and a lighting system consistent with the overall lighting plan of the town.

The county does not anticipate any new functions or personnel at the property but needed increased space to better house the existing functions.

In other matters, construction of a two-story office building was approved at the corner of New Street and Central Avenue. The Planning Board unanimously approved the application of Newpointe Realty, LLC, to construct the 15,600 square foot office building on the one-acre lot with limited parking in a lot located in the rear of the building abutting the railroad tracks.

The building design was scaled down from the initial proposal presented at last month's Planning Board meeting.

"The building has been reduced from 39 to 36 feet in height and from 18,600 square feet to 15,600 square," said developer and local architect Michael Zemsky. "We have also made allowance for a 10-foot setback along Central Avenue and along New Street" continued Mr. Zemsky. Newpointe initially requested variances for zero front and side-yard setbacks which are required by ordi-

nance to be 40 feet and 20 feet respectively.

The board expressed concern over the destruction of a large elm tree on the property which was described by Michael Snezak of the Westfield Tree Preservation Commission as a "good buffer to the railroad" and a "gateway into the downtown." Mr. Snezak stated that the elm tree, "which is in remarkably good condition," is approximately 40 inches in diameter and between 100-125 years old. Mr. Snezak, the board and the developer all agreed that the tree should be preserved.

"Preservation of the tree would reduce our available parking by approximately six spots," noted Mr. Zemsky. The building requires 63 parking spaces, one for every 250 feet of office space, based on the reduced size of the building. The site plan provide for 57 spots with the removal of the tree and only 51 parking spaces if the tree was preserved.

The board, acknowledging the desire to preserve the historic tree, conditionally approved the variances provided that the tree be preserved, the decrease in parking be minimized by utilizing such alternatives as a porous parking surface around the tree and increased parking on the street pending Town Council approval.

The board also discussed the increased traffic flow at the unusual intersection which would be caused by the office building.

Planning Board member Martin Robbins also discussed the possibility of making a cul de sac on New Street at Central Avenue. Town Engineer Kenneth B. Marsh stated that Central Avenue is a county road and that the Planning Board had no jurisdiction over the traffic patterns at the intersection.

The county had previously approved the site plan based on a traffic flow report presented by the developer.

Elizabethtown Water Company Lifts Water Advisory, Completes Repairs

By DEBORAH MADISON
Specially Written for The Westfield Leader

Sources at the Elizabethtown Water Company in Westfield said yesterday that repairs to a water main break which ruptured April 30 near the company's primary water treatment plant in Bridgewater were completed this past Sunday.

The pipe, which serves a multi-

"We responded effectively because our customer service, communications and repair efforts were well-coordinated. We had great support from the customers and the emergency management officials in all the counties and municipalities we serve."

Andrew Chapman,
President of the Elizabethtown
Water Company

county region, was disinfected and tested on Monday and Tuesday. It was put back into service yesterday, according to Elizabethtown spokeswoman Erin Reilly. Customers will not notice any change in their water supply and do not have to take any special precautions, she said.

Andrew Chapman, President of Elizabethtown Water Company, headquartered in Westfield, told *The Westfield Leader* and *The Times of Scotch Plains-Fanwood*, "We responded effectively because our customer service, communications and repair efforts were well-coordinated. We had great support from

the customers and the emergency management officials in all the counties and municipalities we serve."

An advisory to boil water was issued by Elizabethtown Water Company on May 1, hours after the break occurred, and was lifted two days later when company officials determined the water was safe to drink.

The 40-year-old main which ruptured was a large, 60-inch diameter pipeline buried eight feet under the Raritan riverbed.

Over one million customers in 54 municipalities were affected by the break, including customers in Scotch Plains, Fanwood, Westfield and Mountainside, who experienced low or no water pressure periodically on Tuesday.

The break was isolated as of last Tuesday morning, Ms. Reilly confirmed.

The water company issued press releases throughout the day, updating the status of the situation and reporting that most customers began to see normal water pressure flows by early that morning.

However, major news outlets reported that some customers were still experiencing low pressures throughout the day. The company also issued periodic updates of the situation on its Web site at www.etownwater.com.

Backup pipelines were brought into service and the output of the Franklin treatment plant was increased to maximum capacity in order to take up the slack during the emergency.

The company issued a boil water advisory as a precautionary measure, in case contamination entered into the distribution system due to low pressure in the main. Although the advisory remained in effect until May 3, Ms. Reilly said that the sys-

Council Rejects Ordinance To Fund Design of Deck

By PAUL J. PEYTON
Specially Written for The Westfield Leader

The Town Council Tuesday night defeated a bond ordinance that was to set up a funding source for the design phase of a multi-tiered parking deck in the downtown.

Faced with a 4-4 deadlock, Mayor Gregory S. McDermott cast his vote against the ordinance, stating that he would like to see more discussion on the issue.

Voting against the ordinance, which was to put aside \$700,000 in town funds for the design phase of the deck, including soil samples and specifications on size and aesthetics, were the Mayor, First Ward Councilman Peter Echausse, Second Ward Councilmen Rafael Betancourt and Matthew P. Albano, and Fourth Ward Councilwoman Janis Fried Weinstein.

Voting in favor were First Ward Councilman Carl A. Salisbury, Third Ward Council representatives Neil F. Sullivan and Claire Lazarowitz, and Fourth Ward Councilman Lawrence A. Goldman.

The vote followed another passionate plea by residents living in the area of a proposed 600- to 800-space parking deck at Elm and Prospect Streets. The town had been looking to break ground on the \$12 million project in January 2002, but Town Administrator Thomas P. Shannon said last week that time frame probably would not be met.

Councilman Echausse told council members that he would not support a deck on the existing surface

lots at Elm and East Broad Streets, citing both traffic and safety issues. Mr. Echausse, who resides on Tuttle Parkway, chairs the council's Public Safety Committee.

He said he was concerned that a deck at Elm and Prospect would create problems by sending traffic to the right at the intersection of Elm and East Broad or to the left and down to the intersection of Dudley Avenue and Elm Street, which is already plagued by traffic accidents.

Mr. Echausse said a parking structure on an existing surface lot behind the PaineWebber building on North Avenue, more commonly known as lot 9 or the Shell lot, would be a better location for the deck. He described the North Avenue site, which abuts the train station, as a "reasonable and rationale" site. The lot is currently an employee permit lot.

Mayor McDermott told *The Westfield Leader* that the site was eliminated by the town's parking consultant, Rich and Associates, due to its lack of size. The Mayor said that, given proposals for a commuter jitney and valet-style parking in the South Avenue train station lot, perhaps a smaller deck could now be justified and fit at lot 9.

Saying he was caught off guard by the vote on the ordinance, Mr. Salisbury said the council decision has left him with a sense of "spinning my wheels" on whether a deck will be built.

He said the Shell lot "was among the least viable of the sites" the council looked at for a deck. Mr. Salisbury

noted that the site's limited options for entrance and exit driveways, along with the small size of the lot, put it farther down on the list of prospective sites.

During Tuesday's meeting, the proposed deck was often described as a "huge concrete monster" that would result in declining property values, cause health and safety problems from poor air quality due to auto emissions, and pose additional traffic safety risks for children in surrounding neighborhoods.

Another resident said a deck could leave commuters walking to their cars open to the risk of sexual assault, while also creating an environment for homelessness and garbage.

Jordan Hymann, 15, who resides near the Franklin Elementary School, which is around six blocks from the proposed Elm-Prospect deck, said he foresees a small child being injured by increased traffic on Elm.

"You talk about the quality of life, but what happens when there is no life?" he asked council members.

Delores McDermott, commenting on a previous statement by Mr. Shannon, stated that not building a parking deck was "the best case scenario" for the town.

Mr. Shannon had said an 825-space deck was considered the "worse case scenario" for the Elm and Prospect lots, noting that a deck there would likely house 600 to 700 spaces.

Robert Tarte of Prospect Street said deck objectors "will remember who destroys our neighborhood" if

New Town Recreation Director Takes On Position of Heading Department

By DEBORAH MADISON
Specially Written for The Westfield Leader

The town Department of Recreation has filled the position of Recreation Director. Bruce Kaufman, a resident of Denville, has been chosen by the Recreation Commission to fill the position, which was left vacant by the resignation of Glenn Burrell. Mr. Burrell left the department in March.

Mr. Kaufman comes to Westfield with 27 years of extensive experi-

ence and education in recreation and parks administration. He is a Certified Parks and Recreation Professional (CPRP), as well as a Certified Pool Operator.

Mr. Kaufman also has a New Jersey State Teacher's License in Health and Physical Education for kindergarten through 12th grade.

He was Director of Recreation for the City of Summit from 1996 to 1999, which included administration of a community pool, a town-operated golf course and all of the Board of Education fields, as well as town-owned fields.

Prior to becoming Director of Recreation in Summit, Mr. Kaufman was Assistant Director in Summit for five years and Program Supervisor for the Recreation Department in Livingston from 1972 to 1991.

Mr. Kaufman has been Chairman of the New Jersey Community Recreation Society since 1996. He also chairs the New Jersey Board of Collegiate Softball Umpires and serves on the Executive Board of the New Jersey State Baseball Umpires Association.

In addition to attending numerous national conferences and forums hosted by the National Recreation and Parks Association, Mr. Kaufman has been a consultant in field maintenance to various communities

throughout the state. He has also provided instructional softball clinics and field preparation recommendations to other municipalities.

Mr. Kaufman told *The Westfield Leader* that his first challenge will be to simply keep the various programs up and running, while the department is gathering resumes to fill numerous vacancies. The positions of full-time secretary to the director; assistant director and program supervisor remain vacant.

"There will be some aspects of running the department that will slip through the cracks due to the numerous vacancies," Mr. Kaufman explained. "I look forward to the challenge and am anxious to get things up and running again."

He also said he is pleased that the commission chose him to serve the community, which he sees as his role.

"I am not the type to keep searching for something better. I expect to hang my hat here and let it collect some dust," he remarked. "I am fully confident that we will move forward very soon and provide the same service or better as was done in the past."

Recreation Commission Chairman Keith Hertell told *The Leader*, "We are very fortunate to get someone of Mr. Kaufman's level of expertise."

STAYING HEALTHY...With record setting heat throughout last week, Mindowaskin Park bloomed in its full glory. These local residents chat while taking a healthy jog around the park's trail.

GARDENING GLORY... On hand to greet visitors to last year's Union County Master Gardeners' Spring Garden Fair and Plant Sale were, left to right, standing, Tom Wilkinson of Clark, Barbara Wyciskala and Erica Hanlon of Cranford, Nilda Rivera of Springfield; seated, Kimiko Spitz of Westfield and Jilene Harvey of Scotch Plains. This year's festivities will be held on Sunday, May 20, from noon to 5 p.m., rain or shine.

County's Master Gardeners Plan Garden Fair, Plant Sale

MOUNTAINSIDE - The Union County Master Gardeners' 12th Annual Spring Garden Fair and Plant Sale will be held on Sunday, May 20, from noon to 5 p.m. at Trailside Nature and Science Center, New Providence Road in Mountainside.

The activities will be held rain or shine.

President of the Union County Master Gardeners and Co-Chairwoman of the Fair Patti DeBlass noted, "The event is our only fundraiser, and also gives us an opportunity to showcase our organization, encourage new people to join and use the services we and Rutgers Cooperative Extension offer."

"We have free lectures, displays, Rutgers leaflets, and a problem table where visitors can bring plant and insect problems to be diagnosed. There will be Rutgers soil test kits for sale too," added Ms. DeBlass.

Co-Chairwoman Joanne Krueger noted that arts and crafts, a homemade bake sale and children's activities will also be held.

Master Gardeners have been preparing since the fall. Perennials from their own gardens were divided, potted and over-wintered in their new demonstration garden at Trailside, ready to be sold at the fair.

Bedding plants, vegetable plants, shrubs, hanging baskets and houseplants from local merchants will be vended. A Wild Earth Nursery will also be featured.

The lecture schedule will include: "The Use of Common Culinary Herbs Today" by Mary Van der Mude at 1 p.m.; "Vegetable Gardening" with Stephen Schoemann at 1:45 p.m.; "Dazzling Dahlias" with Eric Hamburg at 2:30 p.m. and "The Art of Pruning" with Ellie Gural at 3:15 p.m.

Planting and craft activities, face painting, nature walks and storytelling have been organized by

Lou Stiglitz, Irene Soppas and Beverly Warmbrand for the children.

Proceeds from the event will allow the Master Gardeners to provide services to the community. These programs include community beautification, a year-round Gardening Information Line to answer county residents' gardening and pest questions; horticultural therapy programs for senior citizens, adults and children with disabilities, gardening with children and a Speakers' Bureau.

For more information, please call (908) 654-9854. To reach the Gardening Information Line, please call (908) 654-9852.

Andrew A. Cambria Elected to Membership In Who's Who Edition

WESTFIELD - St. Lawrence University in Canton, N.Y. recently revealed that Andrew A. Cambria of Westfield was elected to membership in Who's Who Among Students in American Colleges and Universities.

Andrew received the honor during Moving-Up Day ceremonies at the university.

He is a member of the Class of 2002.

Follow the Leader: www.goleader.com

WESTFIELD POLICE BLOTTER

MONDAY, APRIL 30

- A Westfield resident reported that an unknown person or individuals scratched both sides of his motor vehicle while it was parked on Coddling Road.

- A motor vehicle belonging to a Westfield resident was defaced with scratches on the passenger side while it was parked on Rahway Avenue.

TUESDAY, MAY 1

- A Lawrence Avenue resident reported that someone removed two, 10-speed girls' bicycles from her open garage.

THURSDAY, MAY 3

- The owner of a Dunham Avenue property reported that someone damaged the sheetrock walls on a house under construction there.

- Justin Cutchall, 20, of Freehold was arrested at Westfield police headquarters and charged with possession of suspected heroin and possession of a hypodermic needle. He was being held in lieu of \$50,000 bail.

Cutchall had been taken into custody earlier on a criminal warrant issued by the Freehold Municipal Court. He was being held in lieu of \$1,000 bail on that warrant.

FRIDAY, MAY 4

- A resident of Twin Oaks Terrace reported the theft of his Motorola cellular telephone from his place of business on Myrtle Avenue.

- A Summit Court resident reported that someone had forcibly entered his home by kicking in a rear door. All three bedrooms in the house were found ransacked, but it was unknown at press time what, if anything, was missing.

SATURDAY, MAY 5

- A resident of Tremont Avenue reported that eight shrubs were pulled up and thrown on her front lawn.

SUNDAY, MAY 6

- Two men, one from Boynton Avenue and the other from Myrtle Avenue, each reported being assaulted by the other during an argument which occurred in the 700 block of Boynton Avenue.

No charges were filed in connection with the incident, but the Boynton Avenue resident was transported to Rahway Hospital by Westfield Volunteer Rescue Squad personnel for treatment of facial injuries, police said.

- A resident of South Avenue, West, reported that he was assaulted in the municipal parking lot at East Broad Street and Central Avenue.

The victim said the father of a friend struck him in the face and head with an umbrella and his fist. No charges had been filed in connection with the incident at press time, according to police.

MONDAY, MAY 7

- A Lawrence Avenue resident reported that an unknown person or individuals threw numerous eggs at her home.

- Arlene Spagnoli, 58, of Edison was arrested and charged with possession of less than 50 grams of suspected marijuana and with possession of a controlled dangerous substance in a motor vehicle after being stopped for speeding in front of the Municipal Building on East Broad Street.

Spagnoli was issued criminal and motor vehicle summonses and was released on her own recognizance.

Westfield Town Council

CONTINUED FROM PAGE 1

the deck is built on Elm and Prospect. Several other speakers also referenced that they would remember council representatives who favor a deck at election polls.

Saul Drittel, a former merchant in town and former President of the Westfield Area Chamber of Commerce, said that, in his judgment, a deck on Elm Street could not support 800 parking stalls, even if the deck was extended over the Trader Joe's parking lot.

He noted that the Rich and Associates report put the South Avenue lot as the first choice for a deck. Mr. Drittel said a deck, which he believes the town needs, would not be for shoppers other than perhaps on the ground level.

Former Mayor H. Emerson Thomas, who lives near the proposed deck, said moving the deck to another location will simply put the problem on someone else.

"You just want to put the problem with someone else instead of yourselves, and I think that's wrong," said Mr. Thomas, who served as Mayor in the 1950s. Saying he favors additional parking, he explained, "The only way we can get this is with tiered parking."

Brian McDermott of Prospect Street explained that if a deck is built in his neighborhood, property values are likely to plummet 10 percent, or roughly \$50,000, for the owner of a home valued at \$400,000.

He said merchants knew the town's parking problem before they signed leases and that commuters are somehow getting to the train regardless of whether they were able to obtain permits from the town.

Resident and local merchant and former Chairman of the Downtown Westfield Corporation, Joseph Spector, in supporting a deck, said the town has never come to grips with a move of banks, stock brokers and professionals from Elizabeth to Westfield in the 1960s. He said the town's infrastructure has not been updated to address this change.

Mr. Spector said the "baby steps" taken by the town in terms of parking initiatives will not cover the entire deficiency the town faces in needed parking capacity.

"What is being discussed is a parking plan, not solely a parking deck," Mr. Spector told those in attendance — a plan that includes improvements for pedestrian safety, vehicular safety and access to businesses and services, "making for a better quality of life."

Prospect Street resident Hillary Brown challenged the council on "the need for such a singular, massive urban construction" in Westfield and for not having yet implemented alternatives that would mitigate the parking problem.

"The parking deck project, as currently conceived, does not meet the positive criteria the Town of Westfield has historically demanded for its residents," she told council members. "Saying it does is a sad distortion of fact, reflecting an agenda that excludes far too many of our citizens."

Resident Neil Brown and a number of other residents asked the council to put the deck issue before voters as a referendum.

A council conference meeting will be arranged with the Mayor, council and Rick Rich of Rich and Associates and may be on the agenda this Tuesday, May 15, along with an update from Department of Transportation officials on the traffic circle improvement project.

HAPPY HYGIENISTS... Westfield orthodontist Dr. Patricia Thrower recently lectured to both first grade classes at Holy Trinity Interparochial School in Westfield. Dr. Thrower reviewed the importance of good home care, regular dental visits and an orthodontic evaluation for all patients over eight years of age. Pictured, left to right, are: Michael Mondan, Samantha Mc Carthy, Dr. Thrower, Bobby Slaski, Kayla Pantano and Tess Lukoikrak.

Masteller, Rygiel Receive Optimist Teaching Awards

WESTFIELD - Westfield Public School teachers Wendy Masteller and Nancy Rygiel were named Outstanding Intermediate School Teachers for 2001 by the Optimist Club of Westfield and were honored at a dinner in their honor on May 9.

The Westfield Board of Education will present resolutions to Mrs. Masteller and Mrs. Rygiel, honoring their accomplishments, at the board's meeting on Tuesday, May 15. A reception in their honor will be held at 7:30 p.m., prior to the business portion of the meeting.

Mrs. Masteller and Mrs. Rygiel are the recipients of the fourth annual Optimist award, established in 1998 to recognize the importance of teaching in the intermediate grades. The award is presented annually to two Westfield teachers - one each from Edison and Roosevelt Intermediate Schools.

Selected as one of the 2001 award recipients, Mrs. Masteller, who is a sixth grade science teacher at Roosevelt School, began teaching at Roosevelt in 1971 and has been a faculty member in the school's science department ever since.

Elizabethtown

CONTINUED FROM PAGE 1

experts to examine the pipeline to determine the cause of the breakage. The company expects it will take about two months to complete the analysis, Ms. Reilly stated.

The water treatment plant in Bridgewater, which dates back to 1931, normally supplies between 130 to 140 million gallons of water per day through the main which was ruptured.

Elizabethtown Water Company, a wholly-owned subsidiary of Thames Water (London, England), provides retail water service in Burlington, Hunterdon, Mercer, Middlesex, Morris, Ocean, Somerset, and Union Counties.

Mrs. Masteller was nominated by several students at Roosevelt.

One of her former students wrote, "Mrs. Masteller did a wonderful job of making her presentations diverse and catering to different learning types as well as different interests. We also used the computers often, which is tremendously important."

Another student, currently in high school, wrote, "Mrs. Masteller is one of those teachers that takes their subject beyond what the book, school and town require. She brought science to life in her classroom."

Mrs. Masteller holds a Masters Degree in Applied Science from New Jersey Institute of Technology and a Bachelor of Science Degree in Education from Pennsylvania State University.

Mrs. Rygiel, a sixth grade mathematics teacher at Edison School, came to Westfield in 1994.

A parent of a current student wrote, "Mrs. Rygiel not only demonstrates the need for math in each student's life, she enriches her students' confidence by explaining how the problem solving skills they learn may be applied to every aspect of their lives."

A former student stated, "Not only is Mrs. Rygiel a superb mathematics teacher, she is a fabulous Student Government Association co-advisor. Her optimistic outlook and contagious personality make her a great leader."

Mrs. Rygiel received a Masters Degree in Mathematics from Rutgers University and a Bachelor of Science Degree in Elementary Education from Trenton State College (The College of New Jersey).

Members of the Optimist Award selection committee included Optimist members Marla Hewitt and Howard Trickey; Superintendent of Schools Dr. William J. Foley; Edison Principal Cheryl O'Brien; Roosevelt Principal Kenneth Shulack; and 1999 Optimist Award recipients Thomas Reynolds and David Shapiro.

TROPICAL TREASURES... Children at Wesley Hall Nursery School in Westfield recently enjoyed exploring the world of a tropical rainforest. The school was transformed into a virtual jungle, complete with monkeys, butterflies, birds, reptiles and swinging vines. Pictured, left to right, are: Johanna Mermer, Jeremy Cohen, Katherine Duffy, Carl Valentino and Michael Jennings. The classmates crafted rainsticks, which create the musical sound of rain falling on the leaves.
