

**Voter-Registration**

**Deadline Approaches**

ELIZABETH - County Clerk Joanne Rajoppi reminds Union County residents that January 15 is the deadline for registering to vote in the upcoming Presidential Primary Election in New Jersey.

"This is an exciting, historic first for New Jersey - voting for a presidential candidate in February instead of June," Ms. Rajoppi said. "I urge all eligible residents to be part of the process and vote on February 5. Your vote does count."

Voter-registration forms are available at the offices of every municipal clerk. Forms may also be obtained by calling the office of the Union County clerk at (908) 527-4996 or by visiting the Union County website at ucjnj.org/ctyclerk/election.html.

Voter-registration forms should be mailed to the Union County Board of Elections, 271 North Broad Street, Elizabeth, N.J. 07208-3702 no later than January 14.

Any United States citizen 18 years or older who is not serving a sentence, probation or parole because of a felony conviction and has been a resident of New Jersey and Union County for at least 30 days qualifies to vote in the Presidential Primary on February 5.

Registered voters who are unaffiliated with a political party may vote in the Presidential Primary by requesting a Republican or Democratic ballot from the election official at their regular polling place on the date of the election.

For more information about voter registration, call the Union County Board of Elections at (908) 527-4123.

**NJ DEP Releases**

**Compliance Report**

TRENTON - The New Jersey Department of Environmental Protection (DEP) has released its Compliance and Enforcement Highlights Report. It is available at nj.gov/dep.

The report features new sections. The first, Natural and Historic Resources, focuses on the efforts of the DEP's Bureau of Dam Safety and Flood Control, Fish and Wildlife's Bureau of Law Enforcement and Parks and Forestry's Forest Fire Service.

The other, Joint Operations, spotlights the combined enforcement efforts of DEP programs working in cooperation with federal, state and local agencies.

"A strong compliance and enforcement program is critical to achieving the mission of the Department of Environmental Protection," Commissioner Lisa Jackson said. "The assistance the program provides to businesses and government prevents pollution and promotes efficient environmental protection, while our enforcement efforts ensure an even playing field for the regulated community and compliance with the high standards the public demands."

Through the federally mandated New Jersey Pollutant Discharge Elimination System Municipal Stormwater Regulation Program, the DEP regulates stormwater discharges into the state's waterways from 677 municipalities, counties, state, interstate and federal agencies.

The DEP and the Municipal Excess Liability Joint Insurance Fund offer a free training video for municipal governments and their employees to help them comply with the state's stormwater regulations. The video is available to all municipalities at njmel.org.

Currently, stormwater runoff accounts for nearly 60 percent of the state's water pollution.

The DEP's Division of Fish and Wildlife has completed its annual winter trout stocking of New Jersey waters, enabling anglers to fish for trout all year. A total of 23 lakes throughout the state were stocked with 5,030 rainbow trout. The trout were raised at the Pequest State Trout Hatchery in Warren County. Only larger two-year-old rainbow trout averaging 14 to 16 inches were stocked during the winter trout program.

Although much of the winter fishing activity in these areas occurs during open water or unfrozen periods, anglers also have the opportunity to catch trout through the ice.

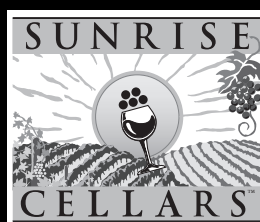

In northern New Jersey, safe ice is usually present on most stocked water bodies during the winter. However, some of the parks where trout are stocked, particularly in the urban areas, prohibit ice fishing.

Anglers should check with the individual park office regarding their regulations on ice fishing.
