SEVENTY FIVE CENTS

SP-F BOE Cites Cost Savings in Move to November Election

By MICHAEL J. POLLACK

SCOTCH PLAINS - Despite some misgivings about the potential emergence of politics ruining the "collegial" nature of the board, the Scotch Plains-Fanwood Board of Education voted 8-1 last Thursday to move its board elections to November.

The move could save the district at least \$30,000. Because most Union County towns have voted to move their elections to November, Scotch Plains would have assumed the sole cost of holding an April contest; one member speculated that costs could have ballooned to \$50,000.

Betty Anne Woerner remained opposed to the measure and voted 'no." She spoke at three different occasions at Thursday's meeting, even disputing the projected cost savings.

If a school board's tax-levy increase is limited to 2 percent, there will be no vote on the budget. Mrs. Woerner said removing a vote provides one less avenue for the public to communicate to the board.

Fanwood resident Michael Lewis agreed, saying that the move to November "would take away all alternatives to communicate with you."

He also said that lumping the school elections into the November political fray would only welcome

facturing society to a service soci-

ety," board member Theodore

Task Force Recommendations Could Cut UC Budget by \$850,000

By PAUL J. PEYTON

COUNTY - Freeholder Dan Sullivan announced last Thursday night that a governmental efficiency task force put together by Union County Manager Al Faella has recommended changes that could save the county \$850,000 in the 2012 county budget.

"The task force's recommendations cover practices regarding computers, printers, copy toner, office supplies, stationary, burglar alarms, portal to portal assignments (use of countyissued cars), fuel consumption, cell phones, BlackBerries, and the purchase of more efficient replacement vehicles," Mr. Sullivan said.

One area where the task force is

looking to save money is the upgrading of the the county's telecommunications infrastructure. The county will be moving the county's voice network hardware to new technology called Voice Over Internet Protocol, or VOIP, which the report estimates could save the county over \$400,000 annually.

Mr. Sullivan said the report recommends cutting the number of cellular devices used by county employees by 40 percent for an estimated savings of \$60,000 annually and replacing county computers "when necessary" with "less expensive, but more efficient models," for an additional annual savings of \$60,000.

"Virtually all these recommendations can be implemented with little impact on the overall operation," Mr. Sullivan said. "This is an excellent starting point" for the 2012 budget, he added. Mr. Sullivan is chairman of the freeholders fiscal affairs committee this year.

It was also announced that a \$60,000 contract with Kean University to provide information technology (IT) services to the county, a resolution unanimously approved by the freeholders, was being done instead of filling two vacancies in the county's IT department.

Cranford resident Jim Buettner said the task force's recommendations amount to only ".2 percent" of the county's budget, which was \$482 million in 2011. "It's pretty sad," he said. "That's (.2 percent) like my gas money for the week."

He said the county could save money by not developing the former Oak Ridge golf course in Clark into a park (for both passive and active recreation) at a cost of over \$16 million. The freeholders approved a resolution Thursday to apply for a matching grant of \$8,035,774 from the New Jersey Office of Green Acres. The county previously was awarded \$1.4 million for the project.

With the release of Mr. Faella's executive budget still weeks away, members of the county's largest union, Council 8, attended Thursday's Board of Chosen Freeholders meeting over concerns of potential layoffs and privatization of some operations.

Michael Bukosky, a Hackensackbased attorney representing Council 8, asked the freeholders to "protect our families and jobs that we have.'

"I know the last thing that a public body wants to do is layoffs," Mr. Bukosky told the freeholders. "What CONTINUED ON PAGE 10

Gov. Christie Supports CF Mayor's Stance on Birchwood

By FRED T. ROSSI

CRANFORD — Mayor David Robinson has expressed appreciation for Governor Chris Christie's seemingly supportive comments about the township's stance on the proposed Birchwood Avenue development.

At the township committee's meeting on Tuesday evening, a resident played an audio tape of the governor's remarks—made recently on a radio call-in program—in which Governor Christie, when questioned by a Cranford resident, said the state Department of Community Affairs had met with local officials and was

"working on resolving the matter." The governor went on to say that he was "concerned about [the proposed development] from a flooding perspective," adding that "it doesn't sound to me like it's a very wise idea." The governor, who told the caller that he had lived in Cranford in the late 1980s, said that the proposed 360 housing units would worsen the

effects from the next severe flood. Earlier in the meeting, Township Attorney Phil Morin briefly recounted last month's denial of a motion for reconsideration in the township's lawsuit against Cranford Development Associates LLC, the Birchwood Avenue developer. Superior Court Judge Lisa Chrystal issued her denial on January 26, after the township had included additional evidence regarding the deleterious effects of flooding on the area if the development were permitted to go forward. The denial will allow the soil conservation permits to be issued by the town-

ship.
Furthermore, the ruling added that ment in issuing any future permits will be adjudicated by a court-appointed Special Master, Mr. Morin

In other business, Deputy Mayor Andis Kalnins said the 2012 township budget will be introduced in early March but a formal vote will not occur until later in June after state aid figures are finalized. He said it will be a "challenging year" as the governing body "balances the services we want versus what we're willing to pay" for those services, all while staying within the state-mandated 2-percent cap. In a related matter, Commissioner Edward O'Malley said that Moody's had recently reviewed the municipality's finances and maintained Cranford's credit rating at "AA2."

The committee also introduced an ordinance to raise the height limit on buildings in the R1 through R7 zones from 30 feet to 32 feet, a move that will allow homeowners in flood zones to raise their homes, as one has already done, in an effort to avoid severe flood damage. Commissioner Kevin Campbell said the ordinance would negate the need for homeowners wishing to raise their houses to apply to the zoning board for variances. A public hearing on the ordinance will be held on Tuesday, March 13.

At the start of the meeting, the township committee honored four retiring department of public works employees. Wayne Rozman, Stephen
